HEALTHCARE WORKERS ARE BEING TARGETED FOR IDENTITY THEFT

IDENTITY THEFT

The number of ransomware incidents reported by healthcare policyholders to Beazley, a data breach insurance solution, increased 70% from Q2 to Q3 of 2019. Medical records can fetch a much higher price on the dark web than personal data, which is part of what makes healthcare such a target.

TIPS TO STAY PROTECTED:

- Secure your Social Security number (SSN).
- Take advantage of free credit reports at www.annualcreditreport.com.
- Take advantage of AHFCU's free ID theft services with Value & Dividend Checking Accounts

Visit www.AHFCU.org for more information and tips to stay protected.
